REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

No prior art of record or combination thereof teaches a stacked inductor having at least one winding; the inductor comprising a plurality of conductive layers, each layer having at least a pair of conductive lines which define a pair of "respective portions of geometrically shaped turns of at least one winding located on opposing first and second longitudinally displaced sides thereof"; the portions of the turns on each layer being symmetric with respect to their position on the winding; at least a first of the plurality of layers having a pair of ports formed thereon and respectively coupled to opposing ends of the at least one winding; an inter-metal dielectric layer disposed between each adjacent pair of the plurality of conductive layers for electrically isolating the adjacent layers; a plurality of via plugs formed in each inter-metal dielectric layer; each via plug providing electrical connection of a conductive line on the first side of one conductive layer to a conductive line on the second side of an adjacent conductive layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
